Offering a unique service in Krabi, we provide professional and specialist help, from the start of the process – buying land and obtaining planning permission – to the finish – landscaping and interior design. We will even manage your home and generate rental income for you, should you wish, after it is completed.

Our design concept is to create simple but elegant villas for tropical living. With clean lines, the layout must be practical, allowing for smooth circulation and maximizing useable space, yet retaining a warm, inviting overall appearance. Maintenance requirements should be minimal.

We have a staff of ten including architects, engineers, foremen, draftsmen and project managers on hand to create your own personal house plan and make modifications at any time; while experienced designers can offer you advice on materials, and tailor your home to your taste.

Each project, large or small, is managed by one of the western staff, who ensure that everything runs smoothly, within budget and on schedule, so you don't have to!
